## POPULAR CHOICE AWARD Best Renovation

### A WINNING APPROACH

Luke Van Dyck's knowledge of beach builds actually won him the Popular Choice Award Best Renovation in the Look Green Home Design Awards for his Collaroy Peninsula renovation (featured in LookHome issue 6). Over the years, renovators had touched up different sections of this 1960s home, giving it a patchy look. By using modern, durable products including PrimeLine® weatherboard, Van Dyck was able to achieve his goal of showcasing the original home while giving it a more contemporary feel.
